Teaching Staff To Be Dispatched for Research Study

Mr. Shozo YOKOYAMA (Associate Professor) and Ms. Kumiko FUJII (Associate Professor), who both hold lecturer's chairs in this master's program, will be dispatched overseas for research study supported by funding from the *Ministry of Education, Cultures, Sports, Science and Technology*. Prof. Yokoyama will engage in research in the Islamic Republic of Iran, and Prof. Fujii will be in Taiwan, for 8 months starting November 2004.

YOKOYAMA: *I've been in Iran 3 times before, but each of them was only for a short period of time. An eight month stay in Iran will be exiting and I am looking forward to events and festivals like 'Ashura' or 'Nowruz' which are really unique among islamic countries and can be seen only in Iran. Persian is one of the 3 most widely-spoken languages in Middle East, so this is definitely a once-in-a-lifetime opportunity for me to study real life and language of Iran.*

FUJII: *I'll be studying at the Department of Japanese Language and Culture, Soochow University which is near the Gugong Palace Museum in Taipei. There are many elderly people who can speak Japanese in Taiwan. This is because they were forced to acquire the Japanese language during its colonial rule. On the other hand, the young generation bolsters the current Japanese boom, as they never experienced the colonial period. Many of these young people also have a command of English nowadays. Experiencing this multi-lingualizing Taiwan is what I look forward to for these 8 months.*

Special University Grant Awarded

Special Grant (4,200,000 yen) from the president of University of Miyazaki for our project was awarded to promote the activity of our project 'Promotion for Co-operative Research on *Master's Program for Japanese Learning Support*', and to send our message to those who are interested in this field.

Research Report *Japanese Learning Support (JLS)*

To Be Published

Our research report 'The Japanese Learning Support' will be published in March 2005.

From the Editor: We hope that our project will be a catalyst for facing the severe conditions of restructuring, budget-cuts, the decreasing number of students, and so on.
